## Roxas still LP's man for 2010 polls

### Party execs say they won't back Erap if he runs for president

By Dennis Fernandez

MANILA (AP) — The Liberal Party (LP) will not back Ermita if he runs for president in 2010, party executives say. The party's top executives, including party president Roxas, said they would not support Erap if he runs for president in 2010. They said they would support him if he runs for vice president.

Ermita, who is currently the party's vice president, said he is not running for president in 2010. He said he is running for vice president in 2010. He said he is running for vice president in 2010. He said he is running for vice president in 2010.

# MAINIT AT MALIGAYANG PAGBATI, KA ERDY!

SA ARAW na ito – ika-2 ng Enero, 2008 – isang bagong pahina ang bubuksan sa aklat ng inyong makasaysayang buhay. At kagaya noong nakaraang taon, ako at ang aking pamilya't kababayan sa lalawigan ng Cavite ay mainit at maligayang bumabati sa inyo, Ka Erdy.

Sa araw ng inyong kaarawan, kasama kaming nagdiriwang.

Enero rin noon, \$5 taon na ang nakakaraan, nang hinirang kayong Tagapamahalaing Ministro ng Iglesia ni Cristo. Sa ilalim ng inyong pamamahala at paggabay, ang Iglesia ay naging matatag na haligi ng pananampalataya sa Panginoon. Ang komunidad at Kapatirang Iglesia ay dumami at lumawak hindi lamang sa Pilipinas, kung saan ito nagmula, kundi sa iba't ibang bahagi ng mundo.

Matagumpay kayo sa inyong bokasyon, Ka Erdy. Ang inyong masyong maipamalita ang Salita ng Diyos ay gawaing walang hangganan, lila bukal na patuloy na nagbibigay ginhawa sa mga nauuhaw at nangangailangan ng kalinga.

## *Maligayang kaarawan, Ka Erdy!*

Although the authors do not provide any data to support their conclusions, they do state that the "importance of the direct and independent effects of organizational factors may vary according to other factors, such as organizational size, industry, and so on." It is possible, for example, that the impact of the organizational factors is influenced by a number of other factors.

the 1990s, the U.S. economy has been growing at a slower rate than in previous decades. This has led to a decline in the number of jobs available, particularly in the manufacturing sector. As a result, many workers have been forced to accept lower wages and benefits, and the overall standard of living has declined. This has led to a loss of faith in the U.S. economy and a decline in the confidence of investors. As a result, the U.S. economy has been in a state of stagnation for many years.

the 1990s, the number of people in the United States who are obese has increased by 50%.

**Summary**

There is a growing body of evidence that the use of the term "epidemic" in the media and by the public is often inappropriate. The term is often used to describe a disease that is not new, is not spreading rapidly, and is not causing a large number of deaths. The term is also often used to describe a disease that is not a public health problem. The use of the term "epidemic" can lead to unnecessary panic and can also lead to a loss of trust in the health system. The authors argue that the term "epidemic" should be used only when it is appropriate, and that the media and the public should be educated about the proper use of the term.

## Rebs raid mine firm, take 2 hostages

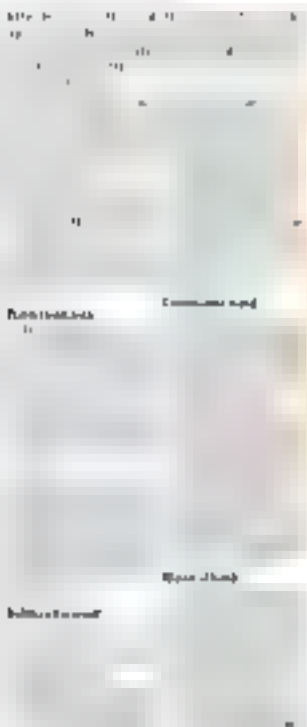

Figure 1 is a line graph titled "Изменение численности особей в популяции европейского пилильщика". The x-axis is labeled "Год" (Year) and ranges from 1970 to 1990. The y-axis is labeled "Численность особей" (Number of individuals) and is on a logarithmic scale from 10<sup>0</sup> to 10<sup>5</sup>. The data points are connected by a line, showing a general upward trend with significant fluctuations. The population starts at approximately 10<sup>1</sup> in 1970, rises to about 10<sup>2</sup> by 1975, and then fluctuates between 10<sup>2</sup> and 10<sup>3</sup> until 1990.

*Abstract*—The purpose of this study was to determine the effect of a 12-week training program on the heart rate (HR) and energy expenditure (EE) of sedentary, middle-aged women. The subjects were 12 sedentary women, 30 to 45 years of age, who were randomly selected from a telephone directory. The subjects were divided into two groups: a control group and an exercise group. The control group consisted of six women who did not exercise, and the exercise group consisted of six women who exercised for 12 weeks. The exercise group was divided into two subgroups: a low-intensity group and a high-intensity group. The low-intensity group exercised at 50% of their maximum HR, and the high-intensity group exercised at 70% of their maximum HR. The subjects were monitored for 12 weeks, and their HR and EE were measured at the beginning and end of the study. The results showed that the exercise group had a significant increase in HR and EE compared to the control group. The high-intensity group had a significantly greater increase in HR and EE than the low-intensity group. The results suggest that a 12-week training program can improve the cardiovascular fitness and energy expenditure of sedentary, middle-aged women.

*Handwritten:* The first part of the book is devoted to a study of the history of the Church in England from the time of the Reformation to the present day.

## Gomez caps big year

## Aunzo 3 off in tough China Am

The image shows a 3x3 grid of face images. The top row shows a very blurry, pixelated version of a face. The middle row shows a slightly clearer version. The bottom row shows a clear, detailed image of a man's face. This illustrates the concept of super-resolution, where a low-resolution image is transformed into a high-resolution image.

# Anscor buys stake in BPO firm

ANSCOR CORP. has acquired a 10 percent stake in BPO firm, according to a source familiar with the transaction. The source said the deal was completed last week. Anscor, a leading provider of business process outsourcing services, is looking to expand its presence in the BPO market. The acquisition is part of a larger strategy to diversify its services and attract new clients. The BPO firm, which has been operating for several years, has a strong track record and a solid client base. The deal is expected to create synergies between the two companies, leading to increased efficiency and growth. The source added that the transaction is subject to regulatory review and approval.

## BOP surplus hits all-time high of \$8.6B

THE U.S. BALANCE OF PAYMENTS (BOP) surplus reached a record high of \$8.6 billion in the third quarter of 1995, according to the U.S. Department of Commerce. This marks a significant improvement from the previous quarter, where the surplus was \$7.5 billion. The increase is primarily driven by a strong performance in the goods trade, which saw a surplus of \$4.2 billion. Services trade also contributed to the overall surplus, with a \$3.4 billion surplus. The current account surplus was \$5.1 billion. The U.S. Department of Commerce noted that the strong BOP performance reflects the resilience of the U.S. economy and the competitive advantage of U.S. exports. The surplus is expected to continue in the fourth quarter, though at a slightly lower level.

DATE	DESCRIPTION	AMOUNT	CHECK NO.	DEBIT	CREDIT	BALANCE

## 2bU12008sportsforecast

En la muestra,  $P = 0.75$  y  $n = 100$ ,  $\hat{p} = 0.75$  y  $\hat{q} = 0.25$ . El estadístico de prueba es  $z = \frac{\hat{p} - p_0}{\sqrt{p_0 q_0}} = \frac{0.75 - 0.7}{\sqrt{0.7 \cdot 0.3}} = 1.07$ . El valor crítico es  $z_{\alpha/2} = 1.96$ . Como  $1.07 < 1.96$ , no se rechaza  $H_0$ . Se concluye que no hay evidencia suficiente para afirmar que la proporción de personas que prefieren el sabor de la bebida sea diferente a 0.7.

**A**fter the 1990s, the number of people in the United States who are 65 years of age or older is projected to increase from 20 million to 35 million. This increase is due to the fact that the number of people who are 65 years of age or older is increasing faster than the number of people who are 18 years of age or younger. The number of people who are 65 years of age or older is projected to increase from 20 million to 35 million by the year 2030. The number of people who are 18 years of age or younger is projected to increase from 75 million to 80 million by the year 2030. The number of people who are 65 years of age or older is projected to increase from 20 million to 35 million by the year 2030. The number of people who are 18 years of age or younger is projected to increase from 75 million to 80 million by the year 2030.

## Young names that will dominate 2008

**Table 1. Summary of the results of the 1000 Genomes Project.**

Category	Number of Variants	Number of Genes	Number of SNPs	Number of Indels	Number of SVs	Number of CNVs
Common	10,000,000	10,000	10,000,000	10,000,000	10,000,000	10,000,000
Low-frequency	1,000,000	1,000	1,000,000	1,000,000	1,000,000	1,000,000
Rare	100,000	100	100,000	100,000	100,000	100,000
De novo	10,000	10	10,000	10,000	10,000	10,000

Let's take a moment to review and
